SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

(1) Organization

Scotia Capital (USA) Inc. (the Company) is a wholly owned subsidiary of Scotia Holdings (US) Inc. (the Parent), whose ultimate parent is The Bank of Nova Scotia. The Company is a registered broker-dealer with the U.S. Securities and Exchange Commission (SEC) under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA), the Options Clearing Corp (OCC), the New York Stock Exchange (NYSE) as well as other exchanges. The Company is also a registered futures commission merchant with the Commodity Futures Trading Commission (CFTC) and a member of the National Futures Association (NFA). The Company's primary business activities include debt and equity securities underwriting, fixed income sales and trading, equity sales and trading, securities borrowing and lending, repurchase agreement activities, investment banking, and equity research. The Company's customers and counterparties comprise a diverse group of domestic and foreign corporations, governments, and institutional investors.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The Company's statement of financial condition is prepared in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP), which requires management to make estimates and assumptions that may affect the amounts reported in the statement of financial condition and accompanying notes. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, and disclosures about contingent assets and liabilities. Such estimates, including the fair value of financial instruments, goodwill, and litigation reserves are, by their nature, based on judgment and available information and, therefore, may vary from actual results. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. The Company adjusts such estimates and assumptions when facts and circumstances dictate.

(b) Cash and Cash Equivalents

Cash and cash equivalents include demand deposits held in banks with original maturities of 90 days or less.

(c) Cash on Deposit with Clearing Organizations

The Company is a member of various clearing organizations and exchanges at which it maintains cash required for the conduct of its day-to-day clearing activities.

(d) Collateralized Financing Transactions

Securities borrowed and securities loaned transactions are reported as collateralized financings. Securities borrowed and loaned transactions are entered into with other broker-dealers or financial institutions and are recorded at the amount of cash collateral advanced or received. Securities borrowed transactions require the Company to deposit cash with the lender and are reflected in the statement of financial condition as Deposits paid for securities borrowed. With respect to securities loaned, the Company receives collateral in the form of cash in an amount in excess of the market value of securities loaned and is reflected in the statement of financial condition as Deposits received for securities loaned. The Company also acts as a securities lender in transactions where it receives securities collateral that can be repledged or sold and such transactions are reflected in the statement of financial condition as Securities received as collateral, at fair value with a corresponding obligation to return those securities reflected in Obligation to return securities received as collateral,

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

at fair value. The Company monitors the market value of securities borrowed and loaned on a daily basis, with additional collateral obtained, posted, or refunded as necessary.

Securities sold under agreements to repurchase are also treated as collateralized financing transactions. The agreements provide that the transferor will receive substantially the same securities in return at the maturity of the agreement and that the transferor will obtain from the transferee sufficient cash or collateral to purchase such securities during the term of the agreement. The liabilities which result from these agreements are initially recognized at amortized cost in the accompanying statement of financial condition.

(e) *Securities Owned, Securities Sold, Not Yet Purchased at Fair Value*

Securities owned and securities sold, not yet purchased are recorded at fair value.

Amounts receivable and payable for regular-way securities transactions that have not yet reached their contractual settlement date are recorded net on the statement of financial condition in receivable or payable from broker, dealers, and clearing organizations.

(f) *Receivable and Payable - Customers*

Receivables from payables to customers include amounts due on cash and margin transactions, including futures transactions. Securities owned by customers, including those that collateralize margin or other similar transactions, are not reflected on the statement of financial condition.

(g) *Receivable and Payable – Brokers, Dealers, and Clearing Organizations*

Receivables from brokers, dealers and clearing organization include amounts receivable for securities failed to deliver by the Company to a purchaser by the settlement date, margin deposits, commissions, and futures transactions. Payable to brokers, dealers, and clearing organizations include amounts payable for securities failed to receive by the Company from a seller by the settlement date and also include futures transactions. Brokers, dealers, and clearing organization receivables and payables additionally include net receivables or net payables arising from unsettled trades.

(h) *Income Taxes*

Income taxes are accounted for under the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, as well as the estimated future tax consequences attributable to net operating losses and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to be applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. If appropriate, deferred tax assets are adjusted by a valuation allowance, which reflects expectations to the extent which such assets will be realized.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

(i) ***Furniture, Equipment, and Leasehold Improvements***

Following is a summary of the carrying value and accumulated depreciation of furniture, equipment, and leasehold improvements at April 30, 2019:

(dollars in thousands)

	Accumulated Depreciation	Carrying Value
Equipment	\$ 1,126	673
Leasehold Improvements	552	1,226
	\$ 1,678	1,899

(j) ***Goodwill***

Goodwill is the excess of purchase price over the fair value of net identifiable assets acquired. Goodwill is reviewed for impairment annually, or whenever events or circumstances suggest that it may be more likely than not the fair value of the reporting unit is below its carrying amount. Goodwill impairment tests may involve judgments in determining the estimate of future cash flows, discount rates, long-term growth rates, economic forecasts, similar guideline companies, control premiums, and other assumptions.

The Company's annual goodwill impairment test will be performed during the second half of 2019. The carrying amount of goodwill was \$72.3 million at April 30, 2019.

(k) ***Effective Accounting Standards***

Revenue from Contract with Customers

Effective November 1, 2018 the Company adopted the new accounting standard for recognizing revenue from contracts with customers using the modified retrospective approach. The standard aims to clarify the principles of revenue recognition, develop a common revenue recognition standard across all industries for U.S. GAAP and provide enhanced disclosures for users of the financial statements. The standard does not impact the timing or measurement of the Company's revenue recognition as it is consistent with existing accounting. The primary impact of adopting the new standard relates to presenting underwriting and advisory revenues and expenses on a net basis to a gross basis, as such the Company is not required to adjust retained earnings upon adoption.

(3) **Related Party Transactions**

The Company has financing transactions with affiliates and The Bank of Nova Scotia, loans with The Bank of Nova Scotia, and an arrangement to provide office space with The Bank of Nova Scotia indicated in the Financing Transactions (Note 4), Credit Facility (Note 5), Subordinated Borrowings (Note 6) and Commitment and Contingencies (Note 8) notes herein.

SCOTIA CAPITAL (USA) INC.

Payable to customers	184,849
Payable to brokers, dealers, and clearing organizations	835
Accounts payable, accrued expenses, and other liabilities	78,484
Total	\$ 3,005,334

(4) Collateralized Financing Transactions

The Company enters into collateralized financing transactions to meet customers' needs, settle other securities obligations and finance its inventory positions.

To maintain reliable funding under a wide range of market conditions, including under periods of stress, the Company manages these activities by taking into consideration the quality of the underlying collateral, and stipulating financing tenor. Additionally, the Company maintains counterparty diversification by assessing counterparty reliability and stability under stress. It is the Company's policy to take possession of the underlying collateral, monitor its market value relative to the amounts due under the agreements and, when necessary, require prompt transfer of additional collateral in order to maintain contractual margin protection.

For repurchase agreements, when necessary, the Company posts additional collateral in order to maintain contractual margin protection. With respect to securities loaned, the Company receives cash and securities collateral in an amount generally in excess of the market value of the securities loaned. The Company monitors the market value of securities borrowed and securities loaned on a daily basis and obtains or posts additional collateral in order to maintain contractual margin protection.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

Collateralized financing transactions are documented under industry standard agreements that allow the prompt close-out of all transactions (including the liquidation of securities held) and the offsetting of obligations to return cash or securities by the non-defaulting party, following a payment default or other type of default under the relevant master agreement. The counterparty that receives the securities in these transactions is generally unrestricted in its use of the securities, with the exception of transactions executed on a tri-party basis, where the collateral is maintained by a custodian and operational limitations may restrict its use of the securities. At April 30, 2019, the approximate market value of collateral accepted and securities borrowed by the Company was \$18.9 billion, of which \$15.4 billion was sold or repledged.

(5) Credit Facility

The Company has established borrowing agreements with The Bank of Nova Scotia in the normal course of business. Amounts outstanding under these arrangements are included within Bank loan payable. The arrangements are summarized below:

A \$600 million 12-month revolving senior unsecured line of credit. Interest on the line of credit is based on prevailing short-term market rates. The credit line matures on March 25, 2020, but may be renewed by the Company for an additional 364 days upon written notice to The Bank of Nova Scotia at least 91 days prior to the expiration date. At April 30, 2019, \$94 million was outstanding on the line of credit.

A \$500 million 12-month revolving senior unsecured line of credit. Interest on the line of credit is based on prevailing short-term market rates. The credit line matures on March 26, 2020, but may be renewed by the Company for an additional 364 days upon written notice to The Bank of Nova Scotia at least 91 days prior to the expiration date. At April 30, 2019, \$5 million was outstanding on the line of credit.

A \$1.05 billion overnight overdraft line of credit. Interest on the line of credit is based on prevailing short-term market rates. The Bank of Nova Scotia reserves the right to withdraw the line with 91 days prior written notice. At April 30, 2019, \$684 million was outstanding on the line of credit.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

A \$1.5 billion 31 day evergreen revolving senior unsecured line of credit. Interest on the line of credit is based on prevailing short-term market rates. The credit line matures on June 25, 2020, but may be renewed by the Company for an additional 364 days upon written notice to The Bank of Nova Scotia at least 60 days prior to the expiration date. At April 30, 2019, no borrowings were outstanding on the line of credit.

(6) Subordinated Borrowings

The Company has entered into a revolving note and cash subordination agreement (the note) with The Bank of Nova Scotia amounting to \$1.2 billion. The note bears a market rate (LIBOR plus a market-based spread) of interest on the amount drawn and is covered by an agreement approved by FINRA, and is thus available in computing net capital under the SEC's uniform net capital rule. The note is scheduled to mature on October 31, 2022. No borrowings were outstanding at April 30, 2019.

(7) Employee Benefit Plans

The Company participates in defined contribution, defined benefit and postretirement benefit plans provided by the Bank of Nova Scotia.

Defined Contribution Plan

The Company participates in a 401(k) salary deferral and profit sharing plan sponsored by The Bank of Nova Scotia (the 401(k) plan) covering substantially all employees. Employees are permitted within limitations imposed by tax law to make pretax contributions to the 401(k) plan pursuant to salary reduction agreements. The Company matches the employee's contributions up to a maximum of 4.5% of the employee's salary.

Defined Benefit and Postretirement Benefit Plans

The Company participates in defined benefit and postretirement benefit plans sponsored by the Bank of Nova Scotia and accounts for its participation by applying multiemployer plan accounting. A net periodic benefit cost is recognized when a contribution is required for the period and a liability is recognized for any unpaid contributions. The defined benefit plan and postretirement benefit plan was closed to new entrants effective December 1, 2011 and February 1, 2017, respectively. The Company contributes to the Bank of Nova Scotia pension and postretirement benefit plans pursuant to predetermined formulas.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

(8) Commitments and Contingencies

The Bank of Nova Scotia provides the Company with office space in New York, Houston, and Boston.

The Company also leases office space in New Orleans under an operating lease.

The Company's future minimum obligation under the aforementioned arrangements as of April 30, 2019 is as follows:

<i>(dollars in thousands)</i>	
2019	\$ 3,178
2020	5,579
2021	5,579
2022	5,561
2023	5,554
Thereafter	10,119
	<u>\$ 35,570</u>

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the statement of financial condition for these indemnifications.

The Company is a member of various exchanges that trade and clear securities or futures contracts or both. Associated with its membership, the Company may be required to pay a proportionate share of the financial obligations of another member who may default on its obligations to the exchange. Although the rules governing different exchange memberships vary, in general the Company's guarantee obligations would arise only if the exchange had previously exhausted its resources. In addition, any such guarantee obligation would be apportioned among the other non-defaulting members of the exchange. Any potential contingent liability under these membership agreements cannot be estimated. The Company has not recorded any contingent liability in the statement of financial condition for these agreements and believes that any potential requirement to make payments under these agreements is remote.

In the normal course of business, the Company, from time to time, may be named as a defendant in litigation actions, including actions relating to its underwriting business. The Company is also subject to various governmental and regulatory examinations and information-gathering requests. Where available information indicates that it is probable a liability had been incurred at the date of the statement of financial condition and the Company can reasonably estimate the amount of that loss, the Company accrues an estimated loss. After reviewing these actions with its counsel, management does not believe that the outcome of such actions will have any material effect on its financial position or results of its operations.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

(9) Regulatory Requirements

The Company is a registered broker-dealer and registered futures commission merchant and, accordingly, is subject to the net capital requirements of SEC Rule 15c3-1 (SEC Net Capital Rule), FINRA, and Regulation 1.17 of the Commodity Exchange Act (CFTC Rule). The Company has elected to use the alternative method permitted by the SEC Net Capital Rule, which requires that it maintain minimum net capital of the greater of \$1,500,000 or 2% of aggregate debit items arising from customer transactions, plus excess margin collateral on reverse repurchase agreements or the CFTC Rule requirement representing the sum of 8% of customer risk maintenance margin requirement and 8% of non-customer risk maintenance margin requirement, as defined.

FINRA may require a member firm to reduce its business if net capital is less than 4% of such aggregate debit items and may prohibit a firm from expanding its business if net capital is less than 5% of such aggregate debit items. In addition, the Company is subject to certain notification requirements related to withdrawals of excess net capital. At April 30, 2019, the Company's net capital was \$905 million which was \$835 million in excess of its required net capital of \$70 million as of April 30, 2019.

(10) Income Taxes

The Company provides for income taxes in accordance with the asset and liability method of accounting and recognizes deferred income taxes for the expected future tax consequences of differences in the book and tax basis of assets and liabilities.

At April 30, 2019, the deferred tax assets of \$11 million were composed of temporary differences due to deferred compensation accruals and depreciation expenses. As of April 30, 2019, management has not recorded a valuation allowance against its deferred tax assets as management believes it is more likely than not that they will be realized through future taxable earnings.

At April 30, 2019 the deferred tax liability of \$8 million was composed of temporary differences due to the tax effect of non-depreciable goodwill and trademarks from the former parent's contribution of Howard Weil to the Company.

The Tax Cuts and Jobs Act (Tax Act), was enacted on December 22, 2017. As part of the Tax Act, the Company is subject to the new 21% corporate tax rate which applies as of January 1, 2018. The Company has evaluated other significant provisions of the law and has not identified any material impact these provisions may have on the Company for the period ended April 30, 2019. The Company will continue to monitor the application of these provisions and make necessary policy elections if and when needed.

The Company remains open to Federal, California, New York State, Louisiana, Texas, Massachusetts and New York City examinations for the years ended October 31, 2015 and forward. The Company does not anticipate any settlements that would result in a material change to the statement of financial condition.

The reconciliation of the beginning unrecognized tax benefits balance to the ending balance is presented below.

(11) Fair Value Measurements

Fair value is defined as the amount that would be received to sell an asset or paid to transfer a liability, or the “exit price,” in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation techniques and establishes a hierarchy for inputs used in measuring fair value.

The Company’s securities owned, securities segregated under federal and other regulations, securities received as collateral, securities sold, but not yet purchased, and obligation to return securities received as collateral are recorded at fair value on a recurring basis.

Fair Value Hierarchy

The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure an asset or a liability fall to different levels within the hierarchy, the classification of the entire asset or liability will be based on the lowest level input that is significant to the overall fair value measurement of the asset or liability. The Company categorizes assets and liabilities based on the inputs to the valuation techniques used to measure fair value as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar instruments in active markets, quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect the Company’s own estimates of assumptions that market participants would use in pricing the asset or liability. Such valuation techniques include the use of option pricing models, discounted cash flow models, and similar techniques.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

The following table represents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of April 30, 2019:

(dollars in thousands)

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
U.S. and Canadian government obligations	\$ 1,376	-	-	1,376
Corporate debt obligations	-	741,811	-	741,811
Common and preferred stock	19,702	739,600	-	759,302
Other foreign government obligations	-	41,677	-	41,677
Total securities owned	21,078	1,523,088	-	1,544,166
Securities segregated under federal and other regulations	570,683	-	-	570,683
Securities received as collateral	3,327,085	109,487	-	3,436,572
Total assets at fair value	<u>\$ 3,918,846</u>	<u>1,632,575</u>	<u>-</u>	<u>5,551,421</u>
Liabilities:				
U.S. and Canadian government obligations	\$ 116,333	-	-	116,333
Corporate debt obligations	-	434,971	-	434,971
Common and preferred stock	920,100	-	-	920,100
Other foreign government obligations	-	19,572	-	19,572
Total securities sold, not yet purchased	1,036,433	454,543	-	1,490,976
Obligation to return securities received as collateral	3,327,085	109,487	-	3,436,572
Total liabilities at fair value	<u>\$ 4,363,518</u>	<u>564,030</u>	<u>-</u>	<u>4,927,548</u>

The fair value of the Company's securities was determined using a variety of sources as follows:

For Common and preferred stock, fair value was determined by the closing price of the primary exchanges and is included in Level 1 and from observable trades and/or external quotes for those included in Level 2.

For U.S. and Canadian government obligations, fair value was determined based on quoted prices in active markets and are included in Level 1.

For Corporate debt obligations, and Other foreign government obligations, fair value was determined using prices from independent market data providers or third party broker quotes and are included in Level 2.

For Securities received as collateral and the Obligation to return securities received as collateral, fair value was determined by the closing price of the primary exchanges for those included in Level 1 and from third party broker quotes for those included in Level 2.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

Securities segregated under federal and other regulations are comprised of U.S. government obligations. Fair value was determined based on quoted prices in active markets and are included in Level 1.

There were no transfers in or out of Levels 1, 2 or 3.

Financial Instruments Not Measured at Fair Value

The carrying value approximates fair value for the following financial instruments: cash and cash equivalents, cash on deposits with clearing organizations, deposits paid for securities borrowed, receivables and payables from brokers, dealers, clearing organizations and customers, deposits received for securities loaned, securities sold under agreements to repurchase, and bank loan payables.

Under the fair value hierarchy, cash and cash equivalents and cash on deposit with clearing organizations are classified as Level 1. Substantially all deposits paid for securities borrowed, receivables and payables from brokers, dealers, clearing organizations and customers, deposits received for securities loaned, securities sold under agreements to repurchase, accounts payable, accrued expenses, and other liabilities, and bank loan payables are classified as Level 2.

(12) Off-Balance-Sheet Credit Risk

As a securities broker-dealer, the Company is engaged in securities trading and brokerage activities with a diverse group of domestic and foreign corporations, governments, and institutional investors, including other broker-dealers, commercial banks, insurance companies, pension plans, mutual funds, and other financial institutions. The Company's customer securities activities are processed on a delivery versus payment and receipt versus payment (DVP/RVP) basis. The Company records these transactions on a settlement-date basis, which is generally one business day for U.S. government securities transactions and three business days for equity and debt securities transactions.

As a result, the Company is exposed to risk of loss on these transactions in the event of the customer's inability to meet the terms of the contracts, in which case, the Company may be required to purchase or sell the underlying securities at prevailing market prices. In connection with the Company's customer and proprietary financing and securities settlement activities, the Company pledges securities as collateral in support of various secured financing sources such as bank loans and securities loaned. In the event the counterparty is unable to meet its contracted obligation to return securities pledged as collateral, the Company may be exposed to the risk of acquiring securities at prevailing market prices in order to satisfy its obligations. The Company controls this risk by monitoring the market value of securities pledged on a daily basis and by requiring adjustments of collateral levels in the event of excess market exposure. At April 30, 2019, the market value of securities pledged under these secured financing transactions approximated the amount due, which is recorded as Deposits received for securities loaned in the statement of financial condition.

As a securities broker-dealer, the Company is engaged in various securities trading and brokerage activities as principal. In the normal course of business, the Company has sold securities that it does not currently own and will, therefore, be obligated to purchase such securities at a future date. The Company has recorded this \$1.5 billion obligation in the accompanying statement of financial condition at the April 30, 2019 fair value of the related securities. In security sales transactions, the Company is subject to risk if the security is not received and the market value has increased over the contract amount of the transaction.

As a securities broker-dealer, the Company is engaged in various securities trading activities and substantially all of the Company's financial assets and liabilities are carried at or approximate fair value.

SCOTIA CAPITAL (USA) INC.
(A Wholly Owned Subsidiary of Scotia Holdings (US) Inc.)
Notes to Statement of Financial Condition
April 30, 2019

(13) Subsequent Events

The Company has evaluated whether any events or transactions occurred subsequent to the date of the statement of financial condition and through the issuance date of the statement of financial condition, and determined that there were no material events or transactions that would require recognition or disclosure in the statement of financial condition.
