

SCOTIABANK ALTERNATIVE MUTUAL FUND INDEX

The Scotiabank Alternative Mutual Fund Index ended December 2025 up 0.30% MoM on an asset-weighted basis and up 0.26% MoM on an equal-weighted basis.

Our index tracks the monthly equal-weighted performance of constituents classified as Canadian Alternative Mutual Funds, as defined by National Instrument 81-102. Given the emerging nature of liquid alternatives, there is no minimum track record, or AUM, required for inclusion in the Index at this time. The Index tracks the performance of 114 funds, across alternative equity, credit, market neutral and multi-strategy. New constituents are added as the market grows.

Index Summary
